Marianne, the Port of Tacoma case is entirely in the hands of ETPA and ORC, so one of those offices should take the lead on the briefing materials. Thanks--Ed

Subject: Materials needed for Dennis' congressional visits next week -- Due Thursday 10 am

Hello ET:

Thank you in advance for your help with briefing materials for Dennis' meetings next week w/members of our congressional delegation. Cindy, Bill and I have conferred with Dennis on the list of issues and the need for briefing papers. Below is not the exhaustive list of issues, but only those for which Dennis wanted updated or new briefing papers. I have organized these by office so you can see your "assignments." **We need these by Thursday at 10 am so that we can compile Dennis' briefing book before he leaves the office Thursday afternoon (he won't be in Friday and he flies out early Monday morning for D.C.). We would prefer you use the one-page "hot issues" paper format you are familiar with (format attached).**

Please call me or Cindy (ext. 1815) with any questions and thank you again for your help in getting Dennis prepared for these important meetings.

AWT

Fairbanks PM 2.5
Shell CAA permits status
Klamath Basin PM and biomass
Hanford (needs input from ECL, but AWT lead to coordinate briefing paper production)

OWW

AK seafood processing effluent guidelines (may be able to get info. from OCIR/HQ)
Latest synthesized info. on Idaho toxics criteria/fish consumption rate processes
Hermiston canal UAA
Hell's Canyon – only need synthesized high level talking points, we have the other materials used for budget hearing follow up
Idaho CAFOs/dairies – issues raised recently in a meeting w/Jim Werntz related to our work in Yakima

ECL

Aurora Energy site assessment
FMC Pocatello current status
West Salem update

ETPA

Alaska legislation to assume CWA 404 program – maybe use material from recent press inquiries
Puget Sound funding status, ULOs, etc.

OCE

Port of Tacoma 404 case update
